Product parameter

product name:	Peacock projection lamp	Color temperature of light source:	2200-6000k
Operating Voltage:	DC5V	battery capacity:	1200mAh
Working current:	40-120mA	Product Size:	78X110X190MM
Use power:	1w	Material quality:	ABS+silicone+hardware
Brightness:	460-625LM	product weight:	156g

PRODUCT DETAILS

Touch function

After power on, touch the iron sheet for the first time to automatically change color;
Two touches to seven touches is the fixed color mode;
The eighth touch is shutdown

Removable back cover

The back cover can be detached and the sticker can be peeled off
Can be pasted on the wall, the holes of the fuselage are aligned
The buckle of the back cover is buckled down firmly
